

User Guide of the application to choose the optional courses

Step 1. Access the application to choose the optional course: <http://optionale.umfcluj.ro/session/login>

The screenshot shows a login form for the University of Medicine and Pharmacy 'Iuliu Hațieganu' Cluj-Napoca. The form is centered on a blue background. At the top, there is a dark blue header with the university's logo and name. Below the header, the text 'Accează cont' is displayed. The form consists of two input fields: a dropdown menu labeled 'Student *' and a text input field labeled 'Număr de înregistrare *'. Below these fields is a dark blue button labeled 'Accează cont'.

Students will enter the first characters of their name in the field labeled **Student** and select their name from the drop-down list. After selecting the name, students will enter their matriculation number in the field labeled **Număr de înregistrare (Registration number)**.

E-mail *

Accesează cont

Warning! Check that the email address you entered is correct. Entering the wrong email address will cause you difficulty in the next step.

If you fail to pass step 1, contact the Dean's Office of the Faculty of Medicine.

Step 3

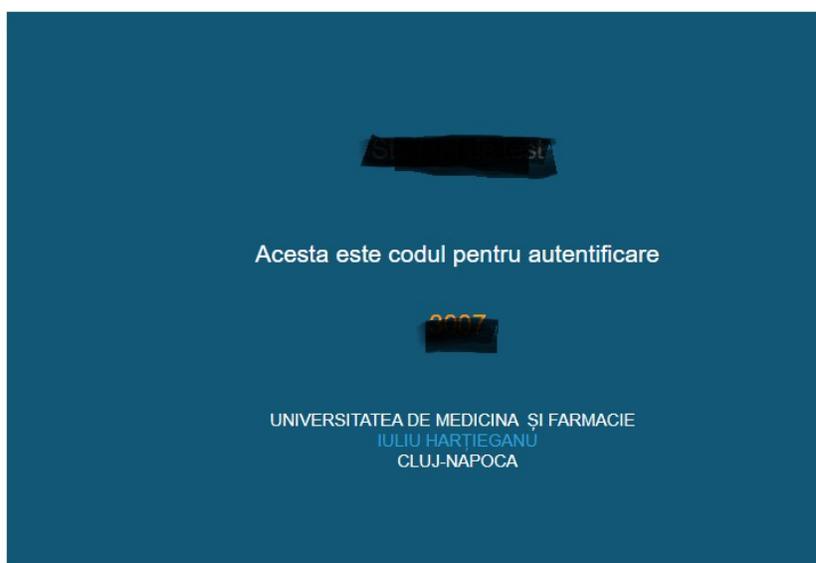

The student will enter the code received on the email address entered in the previous step.

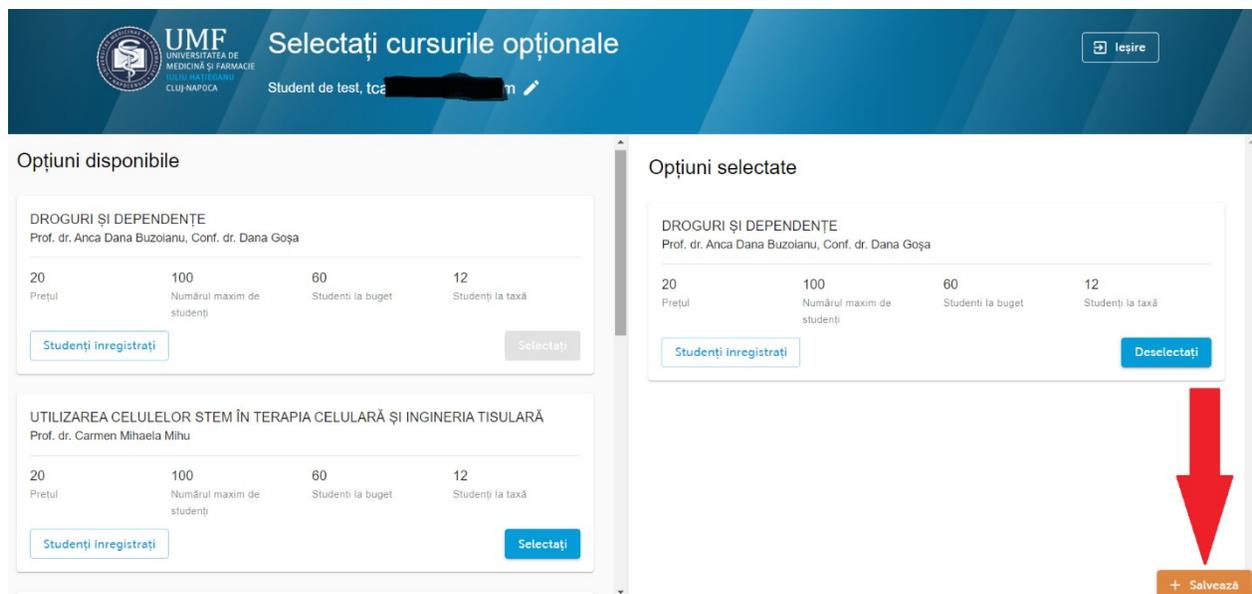

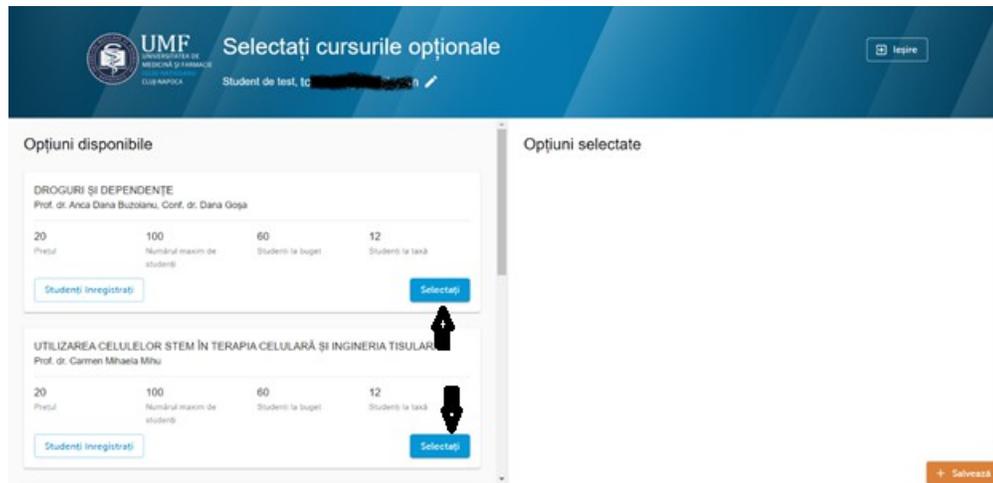

The screenshot shows a web interface for logging into the UMF Cluj-Napoca application. At the top, there is a blue header with the UMF logo and the text "UMF UNIVERSITATEA DE MEDICINA ȘI FARMACIE IULIU HARTIEGANU CLUJ-NAPOCA". Below the header, the main heading is "Accesează cont". There are two status indicators: "E-mail" and "Confirmare", both with checkmarks. A message states: "Un cod de confirmare a fost trimis la adresa de e-mail [redacted]. Vă rugăm să confirmați e-mailul". Below this is a text input field labeled "Codul *". At the bottom, there are three buttons: "Introdu e-mailul din nou", "Retrimite codul", and "Accesează aplicație".

After entering the code, click on **Accesează aplicația (Access the application)**.

The email received comes from app@mentdrive.ro and has the format below. Check if it is also received in the Spam folder. If you entered an incorrect e-mail address, go to the option **Introdu e-mailul din nou (Please re-enter your e-mail address)**.

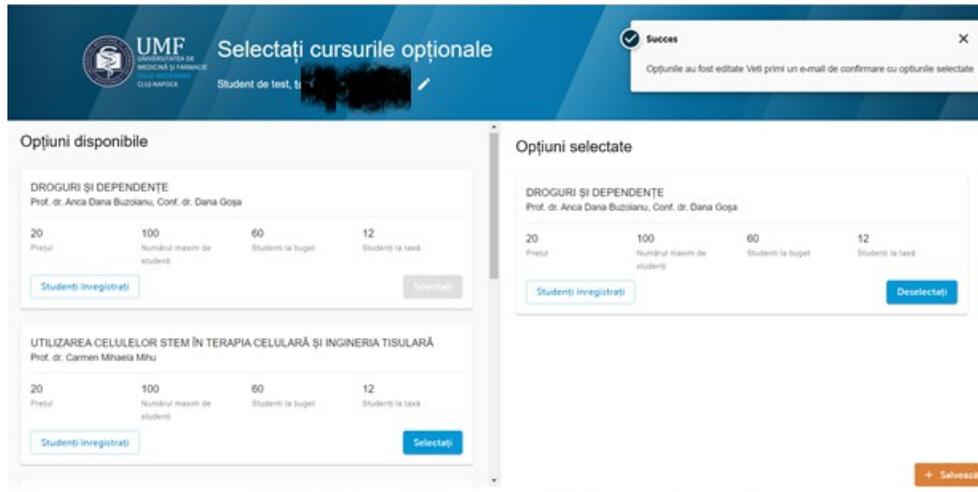

Step 4. Choose the optional course you want to attend, from the list on the left side of the screen by pressing the **Selectați (Select)** button. Once you have made your selection, press the **Salvează (Save)** button at the bottom right of the screen.

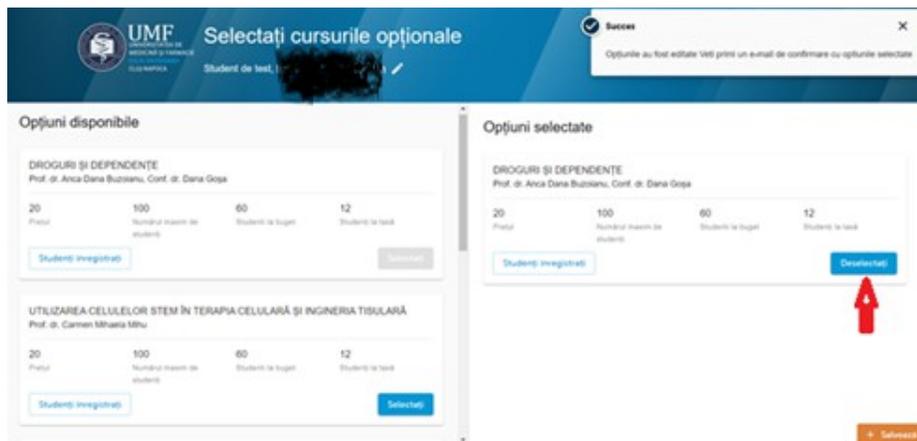

Warning! It is compulsory to click on the **Salvează (Save)** button! The operation of choosing the optional course is not completed before clicking on the **Salvează (Save)** button!

Step 5. If enrollment for the optional course has been possible - if there are still places available - a confirmation message will appear at the top right of the screen. A confirmation will also be sent by e-mail. Also check the Spam folder to identify the confirmation email.

During the enrollment period, students have the opportunity to change their option. To do this, they will press the **Deselectați (Deselect)** button on the right side of the screen to cancel the previous option and then make a new choice.

If the available places have been filled for a course, the application no longer allows registration for this course. When you press the **Selectați (Select)** button, the application displays an error message at the top right of the screen.
